

JAVIER VARGAS GONZÁLEZ

ESG ANALYST | DATA ANALYST

 javo.vg@gmail.com

 (+52) 477264-7580

 León, Guanajuato, México

EDUCATION

Universidad de Guanajuato

Environmental Engineering
2018 - 2022

TECH Global University

Master in Hydrogen Technology
2023 - 2024

Google

Data Analytics Professional
Certificate
2024-2025

University of Illinois Urbana-Champaign

Sustainability Reporting: From
Regulation to Implementation
2025

SKILLS

- Sustainability Reporting
- SQL
- Spreadsheets
- Tableau
- R Statistical Programming
- Python (Pandas, NumPy, MathPlotLib)
- Data Visualization
- Data-driven Decision Making

LANGUAGES

- Spanish (Native)
- English (Proficient)

PROJECTS

Cyclistic Bike-Share Analysis

Google Data Analytic Certificate - Jan/2025

The Cyclistic Bike Share Case Study is a capstone project for the Google Data Analytics Professional Certificate on Coursera. In this case study, a marketing strategy aimed at converting casual riders into Cyclistic members will be discussed. The case study will follow the Ask, Prepare, Process, Analyze, Share and Act stages of Data Analytics.

- Programming in R.
- Processed and Analyzed over 2836654 bike-share records of 2024.
- Aggregated and visualized the data by using ggplot2, tidyr, dyplr.

Auto Parts in demand in the US in 2024

Personal Project - Feb/2025

This report analyzes the performance of the auto parts in demand in America in 2024 and how they have increased or decreased compared to previous years. The source is NHTSA. It's an overview of the auto parts industry in the past year and gives insights for the future.

- Transformed and processed data using SQL and Spreadsheets to ensure data completeness and validity.
- Created visualizations using Tableau and Spreadsheets to identify key insights.

Environmental Analysis Report on Global Emissions

Personal Project - August/2025

This analysis examines historical emissions trends by country, continent, and region, with the main goal of generating useful knowledge and developing strategies for decarbonization.

- Processed and analyzed data in Python using Pandas, NumPy, and Seaborn.

WORK EXPERIENCE

- **Billing Analyst/** Unicare Community Health Center
(May. 2025 - Present)
- **Health, Safety and Environment Supervisor/** Greening-e
(Dec. 2023 - Sept. 2024)
- **Health, Safety and Environment Supervisor /** Environmental Advice
(Sept. 2023 - Dec. 2023)
